OFFICE OF THE COMMISSIONER OF BANKS
STATE HOUSE, BOSTON
AUGUST 1, 1958

*To the Honorable Senate and House of Representatives
of the Commonwealth of Massachusetts:*

I have the honor of submitting to you herewith the annual report of the Commissioner of Banks relating to Co-operative Banks and Savings and Loan Associations, pursuant to the provisions of General Laws, Chapter 167, Section 9, as most recently amended by Section 1 of Chapter 592 of the Acts of 1949.

The financial statements and miscellaneous statistical data incorporated herein pertaining to Co-operative Banks are for the fiscal year ending April, 1958. The financial statements and miscellaneous statistical data incorporated herein pertaining to Savings and Loan Associations are for the year ended December 31, 1957.

Respectfully,

EDWARD A. COUNIHAN, III
Commissioner of Banks

CO-OPERATIVE BANKS

As of April, 1958 there were 176 Co-operative Banks in operation in this Commonwealth. Pertinent statistical data concerning these banks as of the close of business April, 1958 is as follows:

	<i>Amount</i>	<i>Per Cent to Total Assets</i>
Total Assets	\$1,064,233,253.56	
Increase in Assets for the Fiscal Year	70,443,153.07	
Total Investments in Loans Secured by First Mortgages	858,681,679.52	80.68
Total Direct Reduction Mortgage Loans	638,706,716.31	60.02
Total G.I. Loans	187,995,479.86	17.67
All Other Types of Real Estate Loans	31,979,483.35	2.99
Liquidity as Represented by Cash, Due from Banks and Bonds and Notes	171,661,728.56	16.13
Capital Accumulated by Deposits on Shares and Other Accounts	940,245,387.12	88.35
Reserve Accounts Available for Losses	*87,816,127.54	8.25

*This figure (\$87,816,127.54) represents 9.34% of the total share capital.

The report of progress as indicated by the above figures for the fiscal year ending April, 1958, is a tribute to the Co-operative Bank industry in this Commonwealth and to the Directors, Officers and Employees who have dedicated not only their banks, but themselves, to their respective endeavors. In the thrift and home financing field, these banks continue to serve a large segment of the citizenry of this Commonwealth. It is gratifying to report that an examination of the condition of these state-chartered institutions discloses a continuance of the strong position that they have reflected for so many years in the economy of this Commonwealth.

CO-OPERATIVE CENTRAL BANK

The Co-operative Central Bank was established by an Act of Legislature in 1932 and is wholly owned by the Co-operative Banks of Massachusetts. Its powers were broadened by a further Act of Legislature in 1934 creating the Share Insurance Fund. This bank serves a dual purpose for the 176 Co-operative Banks, namely, it serves them as their reserve bank, and serves the 639,569 account holders in Co-operative Banks by insuring in full their invested savings in these institutions.

As of April 30, 1958 the total assets of the reserve fund and the insurance fund in this bank amounted to \$23,448,601.76. These assets are divided between the liquidity reserve fund amounting to \$10,636,983.78, and an insurance fund of \$12,811,617.98. The reserve fund is maintained for the purpose of furnishing the member banks with additional cash, if needed, through the medium of secured or unsecured loans. The Share Insurance Fund provides a pool which can be used, if necessary, to absorb abnormal or unusual losses sustained by member banks, thereby enabling them to avoid the depletion of their own capital fund to a level that might tend to jeopardize the interests of their shareholders.

CO-OPERATIVE BANKS EMPLOYEES' RETIREMENT ASSOCIATION

The Co-operative Banks Employees' Retirement Association was created by an Act of Legislature in 1945 and was established for the purpose of providing pensions for eligible employees of the participating banks who retire on account of age or disability. The law defines eligible employees as employees of Co-operative Banks established under the laws of this Commonwealth, the Co-operative Bank League of Massachusetts and the Co-operative Central Bank. As of April 30, 1958 the assets of this Association amounted to \$1,330,462.89. As of this date there were 97 banks which were members of this Association and 460 eligible employees.

SAVINGS AND LOAN ASSOCIATIONS

There are, in this Commonwealth, four state-chartered Savings and Loan Associations, all of which are located in the Southeastern section of the Commonwealth. These Associations operate under agreements of association in the form of voluntary trusts. The Commissioner of Banks has supervision over these Associations in accordance with Section 34 of Chapter 93 of the General Laws. As of the close of business December 31, 1957 these Associations had aggregate assets in the amount of \$15,554,588 representing an increase of \$261,100 during the fiscal year.

Commissioner of Banks

SAVINGS BANKS AND INSTITUTIONS FOR SAVINGS

During the fiscal year ended October 31, 1958, two banks merged into one institution under the authority of section 72 of Chapter 168 of the General Laws. On November 15, 1957, permission was granted, effective as of the close of business November 22, 1957, for the merger of the Grafton Savings Bank of Grafton, Massachusetts, and the Worcester Five Cents Savings Bank of Worcester, Massachusetts, under the name and charter of the Worcester Five Cents Savings Bank.

Permission was granted to nine banks to establish new branch offices and to two banks to relocate two existing branch offices. At the present time sixty banks have been authorized to operate ninety-nine branch offices, of which ninety-three are in active operation.

During the fiscal year under review, the following branches of savings banks were either opened for business or were designated as branch offices because of bank mergers:

ASSETS

The total assets of the 186 savings banks at the end of the fiscal year amounted to \$5,921 million. During this fiscal year the assets increased approximately \$350 million. This was an increase of 6.27 per cent, a substantial percentage increase over the gain made during the 1957 fiscal year.

YEAR	TOTAL ASSETS AS OF OCT. 31 (in thousands of dollars)	INCREASE (in thousands of dollars)	ANNUAL PERCENTAGE OF INCREASE
1954	\$4,618,359	\$301,861	6.54
1955	5,022,720	404,361	8.76
1956	5,351,497	328,777	6.55
1957	5,572,375	220,878	4.13
1958	5,921,604	349,229	6.27

Investments in all types of securities which savings banks are permitted to acquire have increased during this fiscal year in the amount of \$103 million, the largest increase of \$51 million occurring in the corporate bonds, although holdings of U. S. Government securities and guaranteed obligations increased \$31 million.

Massachusetts savings banks continue to provide ample funds for the financing of home and business construction and also to provide mortgage money for re-financing of newly-acquired homes and commercial type properties for the residents of the Commonwealth. Investment in loans on real estate continues to follow the upward trend which has been in evidence during the past several years, showing an increase during 1958 of \$225 million. Total real estate loans outstanding at the end of this fiscal year amount to \$3,277 million and represent 55.35 per cent of the total assets.

DEPOSITS

The deposit liability of the 186 savings banks at the close of business October 31, 1958, amounted to \$5,223 million and represented 3,334,042 accounts. The club deposit figure amounting to \$35,428 thousand is not included in these figures. During the fiscal year ended October 31, 1958, deposits rose by \$312 million, approximately \$103 million more than last year. The percentage rate of gain for all banks was 6.35 per cent, as compared to 4.27 per cent reported for the fiscal year of 1957. This deposit growth was shared by all of the 186 savings banks.

SURPLUS

The total surplus and reserve accounts for all savings banks amounted to \$582 million, or 11.08 per cent of total deposits. The amounts in these surplus accounts have increased approximately \$23 million since the fiscal year ended October 31, 1957, although the percentage to total deposits has decreased slightly, this lesser percentage is caused by the fact that proportionately surplus balances have been unable to keep up with the unusual increase in deposits. The volume of these reserves in the opinion of this Department is adequate to properly protect the depositors' interests.

DIVIDENDS

Dividend rates continued to rise during the twelve months ended October 31, 1958. Forty-eight banks increased their rate of ordinary dividends and eight banks increased their combined dividend rate through the medium of declaration by the trustees of extra dividends. The average rate of ordinary and extra dividends paid by all savings banks was 3.16 per cent, as compared to 3.06 per cent reported for the fiscal year 1957. The foregoing percentages relate to the last dividends either paid or declared prior to October 31, 1957 and 1958. The total amount of dividends paid to depositors for the twelve-month period totaled approximately \$158 million.

Since the surplus reserves referred to earlier in this report are considered adequate, it is the opinion of this Department that any intense competition on rates resulting in increased dividends would tend to deplete these reserves and would not serve the best interest of either the industry or the general public.

MUTUAL SAVINGS CENTRAL FUND, INC.

The Mutual Savings Central Fund, Inc., was established by Chapter 44 of the Acts of 1932. The statute provides that all banks must be members and that two separate Funds must be maintained, a Liquidity Fund and a Deposit Insurance Fund; the latter Fund was established by the enactment of Chapter 43 of the Acts of 1934.

LIQUIDITY FUND

The purpose of this Fund is "to assist such member banks when they are temporarily in need of cash or hold investments which cannot be readily liquidated, by making loans to them secured by the pledge of mortgages or other securities legally held by such member banks." The total resources amounted to \$10.5 million at the close of business October 31, 1958. No application for a loan has been received since prior to the year of 1939.

DEPOSIT INSURANCE FUND

The purpose of this Fund is to insure depositors in all Massachusetts savings banks against loss. As of October 31, 1958, this Fund insured the full amount of the deposits in 178 of the 186 Massachusetts savings banks, and as required by Massachusetts law, it also insured the excess of any depositor's account over \$10,000 in the eight savings banks which are members of the Federal Deposit Insurance Corporation. The net amount of the Deposit Insurance Fund was \$42.1 million at the close of business October 31, 1958. The annual assessment at the rate of one-twenty-fourth of one per cent of the member banks' deposits, exclusive of the deposits insured by the Federal Deposit Insurance Corporation, was levied on October 1, 1958.

SAVINGS BANK INVESTMENT FUND

This Fund, authorized by Chapter 283 of the Acts of 1945, as amended, became operative during the latter part of 1956. As of October 31, 1958, forty-six Massachusetts savings banks were participants in this Fund through ownership of its shares of beneficial interest. At the beginning of the fiscal year, 2,746 shares were outstanding. As the result of two additional offerings during the fiscal year, the total of outstanding shares on October 31, 1958, aggregated 7,170. The total resources of the Fund, on this date, based on cost values, stood at \$7.4 million. Of this amount \$3.8 million represented the cost of common stocks, \$.4 million the cost of preferred stocks, and \$3.2 million the cost of bonds.

SAVINGS BANKS EMPLOYEES RETIREMENT ASSOCIATION

The Savings Banks Employees Retirement Association, created by the Acts of 1943, Chapter 249, is designed to provide pensions for eligible employees of participating banks and associations who retire on account of age or disability. At the present time there are one hundred seventy-two member banks plus three associations. The total resources of this Association amounted to \$12.3 million at the close of business October 31, 1958.

Edward A. Coughlin, III

COMMISSIONER OF BANKS

TRUST COMPANIES

The Pilgrim Trust Company of Boston converted to a national bank on April 18, 1958 and the Springfield National Bank merged with the Union Trust Company of Springfield, as of the close of business January 17, 1958, under the charter of the Trust Company, the name being changed to the Valley Bank and Trust Company.

The Chelmsford Bank and Trust Company of Chelmsford opened for business on January 6, 1958 and the Dedham Trust Company of Dedham on January 13, 1958.

The total resources of Massachusetts Trust Companies as of December 31, 1958, numbering sixty, amounted to \$1,994,147,000, a gain of \$126,773,000, for the year of 1958. A large part of this increase is attributable, however, to assets acquired by the merger of a national bank with a trust company, less the loss sustained by the conversion of a trust company to a national bank. Disregarding the extraordinary increase that occurred from this source, the gain in resources of all trust companies was very substantial. Total capital accounts amounted to \$195,623,000, larger by \$11,750,000, than the total shown on December 31, 1957.

Net current earnings before income taxes for the year 1958 suffered a material reduction as compared with the year of 1957. Gross earnings were better by \$4,711,507, every category greater than the corresponding figure for 1957 but not enough to cope with the ever increasing cost of doing business. Income taxes paid or due to federal and state governments amounted to \$14,649,195, an increase of \$3,210,074, or about 48% of net profits, which amounted to \$30,441,867, a gain of \$6,355,434, or over 26%. Dividends paid to stockholders in 1958 amounted to \$7,800,068, an increase of close to \$600,000, representing a distribution of 49.39% of net profits after taxes.

The percentage of net capital funds to total net assets on December 31, 1958 was 8.84%, a slight decrease from the percentage of 9% shown on December 31, 1957, but still larger than the average percentage for the past ten years.

COMMERCIAL DEPARTMENTS

The total resources of commercial departments of trust companies on December 31, 1958 amounted to \$1,717,228,000, a gain of \$100,715,000 for the year of 1958. All types of deposits increased except those of the U. S. Government, the total increase amounting to \$85,972,000. Cash on hand, due from other banks, and U. S. Government obligations, amounting to \$861,834,000 were \$90,438,000 greater than the aggregate amount of similar assets on December 31, 1957, and were 50.19% of total assets. Total loans were somewhat lower but installment loans continue their uninterrupted growth, and have reached a figure of \$154,121,000 or nearly 9% of total resources of this department.

SAVINGS DEPARTMENTS

The total resources of the fifty-five savings departments of trust companies on December 31, 1958 amounted to \$276,919,000, an increase of \$26,058,000 since December 31, 1957. Even though a large part of this gain is the result of a merger and conversion, it still represents quite a substantial gain for the second consecutive year and appears to indicate a reversal of the downward trend that has existed since 1946.

The recent growth of these departments was due in large measure undoubtedly to the higher level of interest rates now being paid to depositors and also, perhaps, to the realization of management that these departments serve a worthwhile and profitable purpose; that from the standpoint of public relations they are indispensable and an important feeder to other departments and activities of the bank. From 1948 to 1956 not more than four of these departments were paying over 2-1/4%--in 1948, 1949, and 1950, there were none. In 1957, twenty-one of these departments, and in 1958 twenty-five, were paying more than 2-1/4% while ten were paying more than 2-3/4%, most of these, if not all on a current 3% basis. The average interest rate has risen from 1.17% in 1948 to 2.29% in 1958. Cash, due from banks, and U. S. Government bonds totalled \$113,541,000, an increase of \$13,728,000, and bear a ratio to aggregate assets of 41%. The increase in assets was invested in U. S. Government obligations, other public funds and in real estate loans. Capital accounts, including the guaranty fund which constitutes over 56% of the total capital accounts and which is available solely for the absorption of losses in savings departments, now aggregate \$21,267,000, and bear a ratio of 8.46% to total deposits.

As additional protection to depositors in both the savings and commercial departments, all but four of the trust companies in this state provide insurance in the Federal Deposit Insurance Corporation, whereby the accounts of each depositor are insured in the aggregate amount of \$10,000.

TRUST DEPARTMENTS

The resources of trust departments on December 31, 1958 aggregated \$2,566,064,000, based on values carried on the books of the banks, a gain of \$177,684,000. The steady and substantial growth of these departments and the competence and dedication exhibited in their administration merit the pride and confidence of all. They are making an important contribution to the economy of the state and nation.

There are forty trust companies that have been authorized to exercise fiduciary functions that are actually so engaged. There are thirty trust companies that have agency or custodian accounts in regard to which certain ministerial and agency functions are performed, usually by trust department personnel. This group of banks carry the assets of agency accounts on their books at \$4,080,710,000, an increase over 1957 of \$349,878,000.

Fourteen trust companies had \$372,383,000 of assets as transfer, escrow, bond and coupon paying agent, registrar, depository, or in similar trustee or agency capacities.
